SK-II Intense Radiance Facial

Highlights Catering to the modern Asian woman's quest for smooth and fair skin, the SK-II Intense Radiance Facial features SK-II's award-winning Whitening Source Derm-Revival Program. A mask used in combination with a dissolvable film, it targets and treats stubborn spots. The SK-II Whitening products used in the treatment treat individual whitening needs by detecting peroxide in the skin and delivering actives to address the oxidative damage.

Why We Love It Living in the tropics can often leave skin suffering from prolonged exposure to the sun. The SK-II Intense Radiance Facial combats spots and pigmentation by using SK-II Smart Whitening solutions to target the problem at its roots. Using the SK-II Whitening range—a total of 14 SK-II Pitera™ rich products—the treatment inhibits excess melanin to balance skin tone and leave skin visibly clearer, while boosting moisture for a more radiant complexion.

Need To Know This pampering facial treatment uses ultra-sound to encourage better penetration and absorption of products. *SK-II Intense Radiance Facial is \$250 for 80 minutes at The SK-II Boutique Spa, Scotts Road, Tel: 6836 9168; and Raffles City, Tel: 6333 1940.*
