#### **Aura Lucency Facial at SK-II Boutique Spa**

Where whitening is concerned, it's not enough for skin to be spot and blemish-free. What women want is skin so luminous, it looks as if it's radiating light.

Enter the SK-II Aura Lucency Facial. This premium treatment offered by the SK-II Boutique Spa not only uses the new SK-II Cellumination products, but also includes three masks for the face, eyes, and neck for all-over brightness.

At the same time, the Aura Lucency facial targets fine lines and wrinkles around the eyes with the Biowave machine. This emits microcurrents to boost skin's natural production of collagen and reduce the appearance of dark eye circles. Expect a refreshed, youthful look after just one session.
