SK-II PERFECTING LUXE FACIAL

The results of ageing and overwork are starting to show and you know a regular facial will not cut it. That's when you hightail it to the new SK-II Perfecting Luxe Facial at SK-II Boutique Spa by Senze Salus.

This five-star treatment targets five skin issues for crystal-clear skin: texture, firmness, wrinkles, spots, and radiance. It uses the SK-II LXP Perfecting Serum and Cream, both of which contain the highest amount of Pitera (up to eight times more), as well as high concentrations of vitamins, peptides and a rose absolute essential oil.

Used together with a Bio wave machine, the skincare treats lines, wrinkles, and sagging. Best of all, all this is done in the tranquil surrounds of the luxury spa, whilst you're lying on its sleep-inducing Sensational Beds.

Not only does your skin get a boost to face the week ahead, your frazzled nerves receive much-needed respite too.
