

ELLE beauty TREAT LIST 2016

BEST REJUVENATING FACIAL

Senze Renewal Proionic Facial

Revive your youth with this luxurious treatment that uses a combination of the Indiba Proionic machine and premium SK-II products.

The patented device uses high-frequency currents to improve skin firmness and define contours by helping skin cells recover their natural function and boosting microcirculation.

SK-II products with anti-ageing and firming benefits, such as the brand's signature Facial Treatment Essence, Skin Signature 3D Refining Mask and Signs Up-Lifter, are used before and after device use. The RF heat from the device improves blood circulation, which enables ingredients in the skincare products to penetrate deeper into the skin, and react optimally. Skin looks rejuvenated, revived and firmer after a session, and here's the bonus: You're also treated to a scalp massage and brief neck and shoulder rub that will relieve physical tension.

\$480 for 85 minutes. Available at all SK-II Boutique Spa by Senze Salus outlets at #02-54/55 Millenia Walk, 6336-4880; and #02-06 Shaw Centre, 6836-9168.
