## Senze Oxygenated Facial *SK-II Boutique Spa*

**A**s we age, our skin changes and becomes less capable of repairing itself and regenerating its cells. Pure oxygen aids the skin to renew, and strengthens the skin cells, slowing down the aging process. It is also needed to maintain good health and sustain stable growth of skin cells in the body. To that end, the Senze Oxygenated Facial makes use of medically graded and certified machines to send close to 98 per cent pure oxygen to our skin via infusion, spray and inhalation. After thorough cleansing, facial

massage and oxygen infusion, a serum is induced into the skin. The SK-II Facial Treatment mask is then placed on the face while the guest inhales pure oxygen, thereby helping to reduce stress and support a strong immune system. Lastly, the SK-II Facial Treatment Essence and oxygen is applied using an aerograph tool to calm and soothe the skin.

**BAZAAR LOVES IT**

This oxygen packed facial is suitable for all skin types including sensitive and troubled ones. Impurities are also removed without causing the skin any irritation.

\$400 per 100 minutes. Available at SK-II Boutique Spa, 31 Scotts Road, Tel: 6836 9168; #02-54/55 Millenia Walk, Tel: 6336 4880; #01-16 TripleOne Somerset, Tel: 6733 1765. Visit [www.senzesalus.com](http://www.senzesalus.com)
