**Senze Oxygenated Facial**

SK-II BOUTIQUE SPA

**H**ave you ever wondered why your skin still looks tired and lifeless, even with the amount of products you use? Though various nutrients in the products you use may remedy lack lustre skin on the surface, the answer to really achieving healthy skin is quite simple—boost it with oxygen. Our bodies need it to survive and like the rest of

our organs, our skin needs this oxygen to maintain its normal metabolic processes. The sad truth is our skin loses its ability to absorb as much oxygen as it should as it ages.

To prevent the slowdown of their metabolic rate, our skin cells need to get a certain amount of oxygen. The lack of it, depletes the skin of elastin and collagen, resulting in wrinkles, dull skin and pigmentation. So how do we infuse our skin cells with the right doses of oxygen for them to stay healthy?

SK-II Boutique Spa's Senze Oxygenated Facial makes the process as easy as breathing. Designed specifically to combat this problem, the facial infuses a high concentration of pure oxygen into the skin, while allowing you to breathe in the same unadulterated air. The signature SK-II Facial Treatment Essence is applied using the oxygen spray to allow deeper penetration while providing soothing benefits. Look forward to walking out of the spa with improved health and brighter, healthier and younger looking skin.

**KEY BENEFITS** *Why you should do this.*

■ **NOTHING CLEANER**

Because it uses pure oxygen, this treatment is great for treating sensitive and acne prone skin. It won't aggravate skin conditions like eczema and psoriasis.

■ **THE CAUSE AND EFFECT**

When skin becomes healthier due to the added oxygen, it becomes more capable of absorbing moisture as well.

■ **THE RIGHT BOUNCE**

The treatment makes your skin more elastic and taut by reviving the elastin and collagen in the cells.

**SK-II Senze Oxygenated Facial is \$400 for a 100-minute session. Available at 31 Scotts road, Tel 6836 9168; 02-54/55 Millenia Walk Shopping Centre, Tel 6336 4880. For more information, visit [www.senzesalus.com](http://www.senzesalus.com)**
