 SENZE REJUVENATING PLUS FACIAL

# A Luxurious Touch

Get a radio-frequency treatment with all the trimmings of an indulgent facial at SK-II Boutique Spa by Senze Salus.

There are facials that focus on results, using all types of devices to blast away problems. Then there are those that relax and soothe, which leave us chilled out but perhaps have minimal impact on our complexion. Senze Rejuvenating Plus Facial at SK-II Boutique Spa by Senze Salus (\$480 for 100min) is designed to be both.

Enjoy your treatment on one of the spa's famous Sensational Beds, which boasts a goose-down mattress, soft cotton sheets and a therapeutic Tempur pillow. First, skin is cleansed. This is followed by an extraction session, after which Endymed, a high-tech radio-frequency (RF) machine, is used to heat up the dermis. This causes collagen fibres to contract and tighten, instantly lifting skin. The RF technology is also said to stimulate collagen production – increasing collagen production reportedly even months after the facial – to give you tighter, plumper skin. The treatment finishes with a hydrating or anti-ageing mask and a soothing, lifting face massage – the spa's therapists undergo stringent training, so they are well-versed in massage techniques that stimulate blood circulation and lymphatic drainage.

The spa offers a full menu of indulgent face treatments, all of which use SK-II products. Visit [www.senzesalus.com](http://www.senzesalus.com) to find out more.
