

# Best Overall Skin Rejuvenation Treatment

“Senze Oxygenated Facial”  
By SK-II Boutique Spa

With sun exposure, pollution, diet changes and daily stresses, perhaps your skin does not look as bright and youthful as before? Age plays a part too: The skin’s ability to repair itself is no longer as efficient. To help you improve skin metabolism, SK-II Boutique Spa’s Senze Oxygenated Facial delivers a high concentration of pure oxygen onto skin (up to 98 per cent) with premium-grade technology, while breathing in the pure oxygen also helps to boost your well-being.
