

SK-II BOUTIQUE SPA BY SENZE SALUS

SENZE OXYGENATED FACIAL

The oxygen facial has won many celebrity fans for its immediate skin-smoothing and plumping effects, and the Senze Oxygenated Facial by SK-II Boutique Spa by Senze Salus combines both the power of SK-II skincare and oxygen-infusing technology. The result? A red carpet-worthy glow after just one session. Kicking off with a deep-pore clarifying cleansing, the treatment is followed by the infusion of pure oxygen and the SK-II Treatment Essence deep into your skin to repair and rejuvenate tired and dull skin. It instantly leaves your complexion smoother, plumper, brighter and more refined. So soothing and refreshing is the oxygen-infusion process that it is also calms sensitive-skin conditions including eczema, psoriasis and acne. The pampering continues with a lifting and firming facial massage, followed by a nourishing face mask and a relaxing neck-and-shoulder massage. We walked out floating on air — and looking like a million bucks.

The Senze Oxygenated Facial is available for \$400 for 100 mins at SK-II Spa Boutique by Senze Salus.
