

SK-II BOUTIQUE SPA BY SENZE SALUS

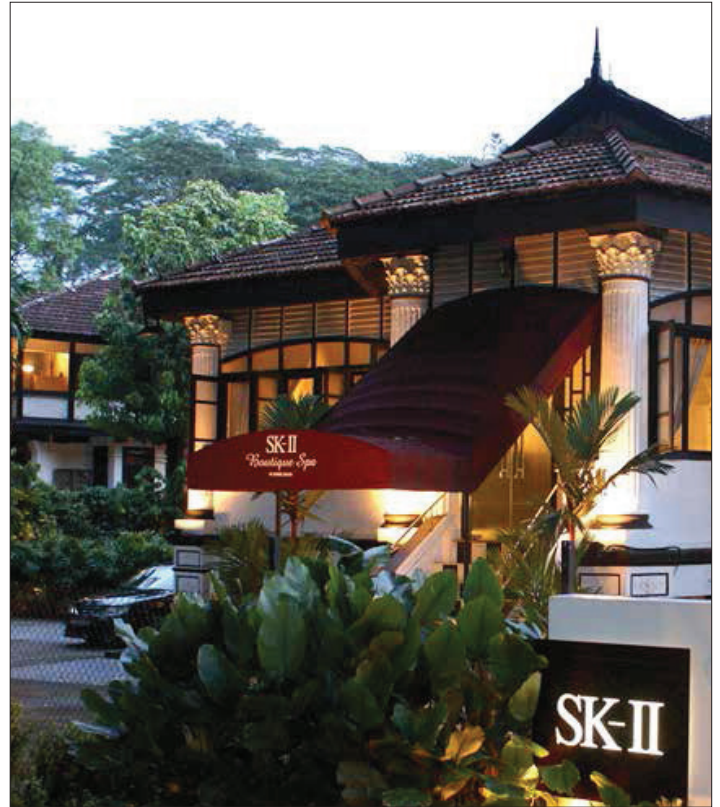

SK-II PERFECTING LUXE FACIAL, \$320 (100MIN)

Tackle a host of beauty issues at one go with the Perfecting Luxe Facial by SK-II Boutique Spa. From the welcoming reception area to the plush treatment bed — complete with a fluffy down comforter — no detail is too small to offer customers the ultimate spa experience.

This pampering procedure targets common face and neck problems including fine lines, wrinkles, pigmentation, sagginess, dullness and rough texture. The SK-II LXP Perfecting Serum and Cream used in this facial is the ideal solution for tight, dry, tired and saggy skin. The range contains the highest concentration of miracle ingredient Pitera among the brand's skincare offerings, as well as a nourishing array

of vitamins, peptides and active ingredients to plump and smoothen out the complexion as well as fight all signs of ageing. The addition of Rose Absolute essential oil gives a subtle and immediate sense of wellbeing and comfort during this pampering treatment.

Complementing the products are the spa's exclusive Bio wave machine to give an additional firming and lifting boost to both the face and neck. Spa junkies will love the complementary facial massage with uplifting movements to manually counter sagging for an instant firming boost, not forgetting the ultra-soothing neck-and-shoulder massage that's relaxing enough to lull even the most stressed into a blissful slumber.
